## WHAT IS THIS INVESTMENT VEHICLE?

<b>OBJECTIVES</b>	The assets are mainly invested in interest rate products and money market assets; the investment in equity markets is marginal. For this strategy, the investment horizon can be considered short term. The recommended investment horizon is at least 1 year.
<b>INTENDED RETAIL INVESTOR</b>	This Internal Collective Fund is designed for investors who want to preserve their capital and limit their exposure to risk in exchange for a lower expected return.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The summary risk indicator is a guide to the level of risk of this investment product compared to others. It shows how likely it is that the investment product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

The value of this investment vehicle is not guaranteed but is subject to upwards or downwards fluctuations depending in particular on how the financial markets perform.

This investment vehicle does not provide protection against market fluctuations. You may lose all or part of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

## PERFORMANCE SCENARIOS

The figures shown include all the costs of the investment product itself, [but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

RECOMMENDED HOLDING PERIOD 1 YEAR EXAMPLE INVESTMENT 10 000 EUR		
SCENARIOS	IF YOU EXIT AFTER 1 YEAR (RECOMMENDED HOLDING PERIOD)

## WHAT ARE THE COSTS?

The person advising on or selling you this investment product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the investment product and how well the investment product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the investment product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

INVESTMENT 10 000 EUR	IF YOU EXIT AFTER 1 YEAR
TOTAL COSTS	99 EUR
IMPACT ON RETURN (RIY) PER YEAR *	1.0%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.4% before costs and -0.6% after costs.

We may share part of the costs with the person selling you the investment product (product) to cover the services they provide to you. They will inform you of the amount.
