Date of production of the SID : 30/11/2025

Alert : You are about to purchase an investment support that is not simple and may be difficult to understand.

WHAT IS THIS INVESTMENT VEHICLE?

| | |
|--------------------------|---|
| OBJECTIVES | The management style offers balanced exposure to equity markets and alternative products (up to 65% of the portfolio managed) and more secure investments such as interest rate products and monetary assets. Alternative* investments are limited to instruments, the change in value of which is negatively or very weakly correlated to the change in values of other components of the portfolio. No direct or indirect opportunities for investment in private capital (private equity), risk capital or unlisted shares are offered. The recommended investment horizon is at least 4 years. |
| INTENDED RETAIL INVESTOR | This investment vehicle is intended for policyholders who wish to control the risk associated with their savings in the medium term. They therefore consider an even distribution between moderately secure assets and risky assets. |

(*) Alternative investments are any direct or indirect investment in assets other than shares that are traded on a regulated market of a EEA member country or the United States of America, Canada, Australia, New-Zealand, Japan, Switzerland ("quoted shares"), bonds and money market products which benefit from a high investment grade rating from a major rating agency, or cash flow. As such, alternative investments are considered to be, in particular but not exclusively, any direct or indirect investment in real estate, raw materials and merchandise, precious metals, private equity, unquoted shares, high-yield securities ("non-investment grade"), securities of a company in difficulty, hedge funds, risk capital, infrastructure, structured products, derivative products for non-hedging purposes, or more generally, investment with collective investment undertakings which do not comply with the amended Directive 2009/65/CE ("UCITS Directive").

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The summary risk indicator is a guide to the level of risk of this investment product compared to others. It shows how likely it is that the investment product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

The value of this investment vehicle is not guaranteed but is subject to upwards or downwards fluctuations depending in particular on how the financial markets perform. This investment vehicle does not provide protection against market fluctuations. You may lose all or part of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the investment product itself, [but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.]

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

| RECOMMENDED HOLDING PERIOD 4 YEARS EXAMPLE INVESTMENT 10 000 EUR | | | |
|---|-------------------------------------|---|---|
| SCENARIOS | | IF YOU EXIT AFTER 1 YEAR | IF YOU EXIT AFTER 4 YEARS (RECOMMENDED HOLDING PERIOD) |
| MINIMUM | | There is no minimum guaranteed return. You could lose some or all of your investment. | |
| STRESS | What you might get back after costs | 3 960 EUR | 5 360 EUR |
| | Average return each year | -60.44% | -14.44% |
| UNFAVOURABLE | What you might get back after costs | 8 310 EUR | 9 800 EUR |
| | Average return each year | -16.87% | -0.51% |
| MODERATE | What you might get back after costs | 10 290 EUR | 11 450 EUR |
| | Average return each year | 2.94% | 3.45% |
| FAVOURABLE | What you might get back after costs | 12 780 EUR | 14 690 EUR |
| | Average return each year | 27.78% | 10.09% |

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario : This type of scenario occurred for an investment between 01/10/2018 and 30/09/2022.

Moderate scenario : This type of scenario occurred for an investment between 01/01/2019 and 31/12/2022.

Favourable scenario : This type of scenario occurred for an investment between 01/04/2020 and 31/03/2024.

WHAT ARE THE COSTS?

The person advising on or selling you this investment product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the investment product and how well the investment product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the investment product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

| INVESTMENT 10 000 EUR | IF YOU EXIT AFTER 1 YEAR | IF YOU EXIT AFTER 4 YEARS |
|--|--------------------------|---------------------------|
| TOTAL COSTS | 200 EUR | 912 EUR |
| IMPACT ON RETURN (RIY) PER YEAR * | 2.0% | 2.0% each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.5% before costs and 3.5% after costs.

We may share part of the costs with the person selling you the investment product (product) to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

ANNUAL COST IMPACT IF YOU EXIT AFTER 4 YEARS

| | | | |
|---|---|--|-------|
| ONE-OFF COSTS UPON ENTRY OR EXIT | Entry costs | % of the amount you pay in when entering this investment. | 0.00% |
| | Exit costs | % of your investment before it is paid out to you. | 0.00% |
| ONGOING COSTS TAKEN EACH YEAR | Management fees and other administrative or operating costs | % of the value of your investment per year. This is an estimate based on actual costs over the last year. | 1.40% |
| | Transaction costs | % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the investment product. The actual amount will vary depending on how much we buy and sell. | 0.60% |
| INCIDENTAL COSTS TAKEN UNDER SPECIFIC CONDITIONS | Performance fees and carried interest | There is no performance fee for this investment product. | 0.00% |
